

John R. Molina

Little Ferry, NJ | (551) 404-7605 | jrm90@me.com | linkedin.com/in/johnrmolina | github.com/richtxteditor | richtxteditor.github.io

SOFTWARE ENGINEER

Software Engineer and Computer Science graduate with full-stack project experience in Python, Django, React, TypeScript, PostgreSQL, and REST APIs. Brings 6+ years supporting data-intensive workflows, translating stakeholder requirements, and delivering reliable web, reporting, and data solutions for higher-education and nonprofit users.

TECHNICAL SKILLS

Languages: Python | TypeScript | JavaScript | SQL | Java | C/C++ | HTML/CSS | Bash

Frameworks: Django | Django REST Framework | React | Next.js | Node.js | Wagtail CMS | Prisma ORM

Databases and Data: PostgreSQL | Oracle/Athena | SQL Server | SQLite | Data Modeling | ETL | Data Validation

Tools and Testing: Git | Docker | GitHub Actions | Postman | Django TestCase | WagtailPageTests | Power BI | MS SSRS

SELECTED PROJECTS

Portfolio Website Platform | Django, Django REST Framework, React, Wagtail CMS, PostgreSQL, Docker | 2026

- Engineered a full-stack portfolio and blog platform with Django, React, PostgreSQL, REST APIs, Webpack bundling, and a Wagtail CMS for structured content management.
- Hardened public-facing routes and forms with brute-force protection, content security policy headers, API rate limiting, CAPTCHA, and automated Django/Wagtail tests.

Fusion Manaba E-Commerce Platform | Next.js, TypeScript, Prisma ORM, PostgreSQL, REST API | 2025

- Built a full-stack e-commerce application for a small business, owning schema design, backend API workflows, frontend integration, and deployment preparation.
- Modeled product, user, order, and cart workflows in PostgreSQL with Prisma ORM, then integrated catalog and checkout flows into a server-rendered Next.js frontend.

Client/Server Chat Application | Java, TCP/IP, Linux Sockets, Multithreading | 2023

- Implemented a multithreaded Java chat system with TCP/IP sockets, custom message framing, graceful disconnect handling, and concurrency controls over shared state.

Geopolitical Economic Analysis Data Pipeline | Python, Pandas, Matplotlib, Jupyter | 2023

- Built a Python pipeline that cleaned and normalized Bloomberg, SIPRI, and World Bank datasets into a unified analysis set, producing reports and visualizations across 30+ countries and 10 years of data.

EXPERIENCE

Yeshe Nyingpo, Inc., New York, NY

Volunteer Web and Technical Lead | 2019 - Present

- Maintain two public websites plus analytics and email workflows for a nonprofit community with 700+ member records.
- Scope a migration from Wix and spreadsheet workflows to a custom Django and PostgreSQL application by translating stakeholder requirements into technical plans.

Columbia University, Office of Alumni and Development, New York, NY

Development Assistant, Data Management Group | 12/2017 - 08/2022

- Wrote SQL queries and supported Python batch, SSRS, and Power BI workflows across 5M+ Athena/Oracle constituent records for fundraising stakeholders.
- Validated ETL and data migration workflows across internal systems and third-party vendors through field mapping, exception handling, post-load checks, and documentation.
- Triageed and resolved 10,000+ Salesforce-based data service inquiries involving access requests, report issues, data corrections, and cross-system record problems.

EDUCATION

Bachelor of Science, Computer Science | Montclair State University, Montclair, NJ | 2024
